

TRADITION OF THE PYRENEES

FONT-SANS was established in 1917 by Josep Font Sentías with the aim to produce traditional cured sausages. With a century-old experience and loyal to its origins, it currently keeps the traditional character in a carefully selected range of cured sausages, hams, streaky cured bacons, loins, and chorizos among other products, traditional sausages with the same old aroma and flavour as always.

FONT-SANS develops its activity on 7.000m²-facility located in the Pyrenees, with a climate that favours natural curing process most of the year.

A commitment to quality, tradition and territory enables us to trust on the long experience of local staff, preparing with care and skill all our products, fresh and high quality meats are selected on a weekly basis, curing sausages and hams at a slow pace, and controlling each product by hand.

The fourth generation of the **FONT** family business has the objective and the responsibility of continuing to provide a gastronomic experience on the market, that bring back traditional and handcrafted sausages of the Pyrenees.

SAUSAGE ET FUET
